

A Time of Jubilee!

Working with Christians in politics across Europe, The Christian Party – Christian Peoples Alliance have come together united by our Christian faith and the values that flow from it.

For the EU, these are our policies:

A Christian Europe

Recognition that Christianity brought Europe the freedom, culture and values that we must return to.

End Secrecy and Corruption in the European Union

Bring transparency and openness. Reform the accounting system and tackle financial abuses.

Referendum Now! (Lisbon Treaty)

No to a European State. More democracy, less bureaucracy and an end to creeping federalism.

Greening the Global Economy

Jobs, the developing world and the climate are paramount. We'll end debt-based growth and move away from a carbon-based economy.

Trade Justice and Equality

Open EU markets to help end global poverty. And we'll tackle growing social division.

Respect for the Human Person

Full protection of the law for all human life from conception until natural death.

Our Candidates for London:

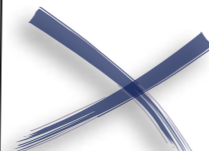

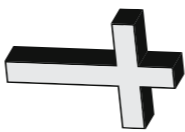

Printed by Waddington & Ledger Ltd, Lovelocks Business Park, Elmdon, West Yorkshire HX5 9DA. Published and promoted by John Williams on behalf of the Christian Party "Proclaiming Christ's Lordship" both of 5102 Kingsland Road, London, E8 4AE.

**For Honesty and Integrity in Politics
on 4th June Vote Christian**

Election Communication from the Christian Party "Proclaiming Christ's Lordship" London Region

Are You Concerned About the Far-Right Gaining Seats in Europe?

We can stop them!

Find out how...

The surest way to stop the BNP is to Vote Christian

FACT 1: The E.U. Elections use a Proportional Representation system of voting, which is completely different from the system used in General and Local elections in London.

FACT 2: In London the E.U. Elections will be contested over 8 rounds for 8 available seats.

FACT 3: The BNP (British National Party) can only win a seat in the 8th round of the London E.U. Elections.

FACT 4: By the 8th round all the major parties will have had their votes discounted under the Proportional Representation system rule, which states:

“At the beginning of each round, the total votes cast for a party will be divided by the number of seats already won in previous rounds, plus 1.”

e.g. If the Conservatives gain a total of 600,000 votes and as a result win 3 of the first 7 seats available in London; when the 8th seat is contested the Conservatives' 600,000 votes will be divided by 4 i.e. 3 (the number of seats won) +1. This will mean that the Conservatives will only have 150,000 votes counted when it contests the 8th seat. Visit www.wastedvote.info for further details.

FACT 5: Voting for Labour, Conservative, Liberal Democrats or Greens is the worst thing you could do if your intention is to stop the BNP winning in London.

FACT 6: Last year under the same Proportional Representation system of voting 80,000 voters wasted their votes¹ voting for Labour, Conservative, Liberal Democrats or Greens

FACT 7: Voting Christian is the surest way to stop the BNP according to the latest figures.²

1. A wasted vote is defined as a vote that did not effect the outcome of the poll. Visit www.wastedvote.info for details.

2. The joint Christian Party/Christian Peoples Alliance list came 6th in last year's Greater London Assembly Election.

“The only thing necessary for evil to triumph is for good men to do nothing.” (Edmund Burke)

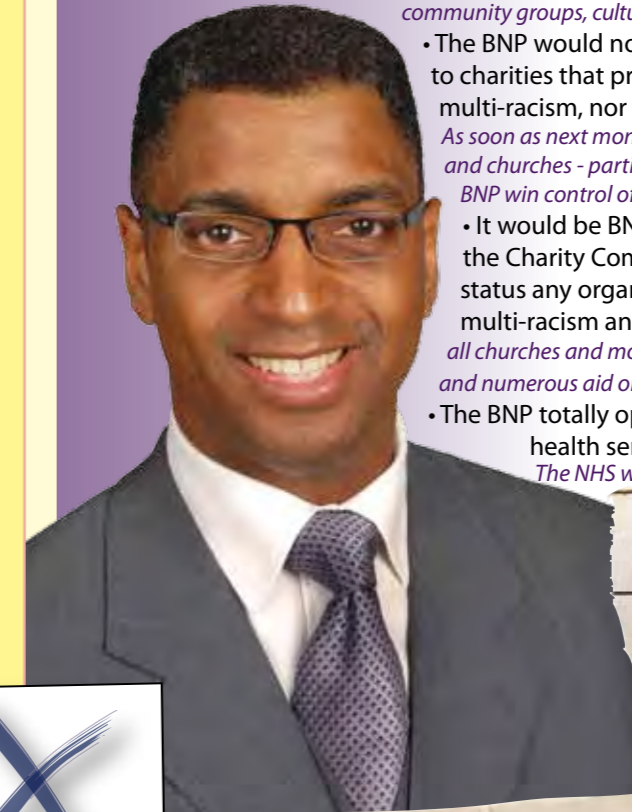

“When the righteous are in authority, the people rejoice: but when the wicked man rules, the people mourn.”

Proverbs 29:2

Why is it so important to stop the BNP?

A. Because they are racist. Here are some examples of the BNP's racist policies from their local government manifesto:

- The BNP want the provision of any public money to non-British or non-indigenous religious, ethnic or cultural activities to be strictly prohibited.
This would mean no Black majority church or ethnic church, including the Orthodox churches, could bid for or participate in government sponsored social schemes under this BNP policy. This would also mean Church of England, Catholic and other church initiatives, relief agencies, community groups, cultural events and festivals, etc would be denied vital cash.
- The BNP would not allow National Non-Domestic Rate relief to charities that promote any form of multiculturalism or multi-racism, nor to non-indigenous religious groups.
As soon as next month this measure could impact hundreds of charities and churches - particularly Black, ethnic and Orthodox churches - if the BNP win control of a local council on June 4th.
- It would be BNP central governmental policy to overhaul the Charity Commission and debar from having charitable status any organisation that promotes multiculturalism, multi-racism and foreign religions. *This would mean that possibly all churches and most certainly all Black, ethnic and Orthodox churches and numerous aid organisations would lose their charitable status.*
- The BNP totally oppose the recruitment of foreign staff by the health service and local authorities.
The NHS would crumble, and local services would be devastated.

The Times, Tuesday May 12, 2009

Revulsion at conduct of MP's

Voters are united in revulsion over the disclosure of MP's expenses and have turned against both main parties, a *Populus* poll for the Times found today.

The poll, taken between Friday and Sunday, suggests a sharp drop in support for Labour and the Conservatives, with Liberal Democrats and smaller parties, including the British National Party, benefiting.

“I think we do ignore at our peril the very high risk - which history should have taught us - the very high risk of financial stringency leading to political extremism.”

Dr Rowan Williams, Archbishop of Canterbury
